

California to Australia in a Cirrus: A True Ferry Tale

Mike Radomsky, one of our FAASTeam Representatives, flew a single-engine Cirrus SR22 solo from Davis, California to Brisbane, Australia in October 2012 to deliver the plane to its new owner.

The months of planning and preparation alone were an adventure! Mike will share highlights of his experience (with lots of great photos and video), including his risk management plan, airplane modifications, the FAA requirements, and the special challenges of managing fuel, navigation, communications, and in-flight physical/mental fitness during this unique trans-Pacific trip.

Directions: South Conference room on ground floor of Henderson Executive Airport terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!
